Presentation about Why You Should Study IT and Computers at School

You need to create a Presentation in PowerPoint using Office 365 answering the following question.
**Why is it important to study IT and Computing at school?**
Things you need to include:

-Use in jobs

-Examples of different careers that you wouldn't think would use computers but they do and what they use them for.

e.g. a builder to write quotes (word processing, order

stock (internet / email), do their accounts (spreadsheets)

This website may help:

https://www.bbc.co.uk/bitesize/groups/cvpqdxx04v3t
