

The items below are in the wrong order. They would all take very different amounts of time to break down. Sort the items into how long they would take to biodegrade or decompose. You can draw the images or write the names in.

Plastic Bag, plastic bottle, calculator, tea bag, sock, apple, banana, magazine

Shortest time

Longest time

Plastic is becoming a big problem for the planet.

Describe some ways that people can reduce their plastic use.
