## PD - Year 11

Continuing our work on pedestrian and vehicle road safety I would like you to have a look at the map below of the local area around Bower Grove School.

- The Blue Pins indicate minor traffic incidents.
- The Orange Pins indicate Severe traffic incidents
- Red Pins (which fortunately don't show on this map) indicate road traffic fatalities

If you are able to access the internet search for **www.thinkmap.gov.uk** and put in your street name or postcode.

If you cannot access the internet use the map below to answer the questions.

1) Identify the "hot spots" - Where are the most accidents? include street names / landmarks.

2) Using your knowledge of the local area why are these the danger areas?

3) What other information can you find out? casualty ages / casualty vehicle type etc. You will need to click on the pins on the live website version to find out more.
